

# Emirates Stadium Event Day Scheme Review

Review of Event Day Controls in  
Emirates Event Day Area

Consultation Outcome

# Consultation Outcome

## Why have I received this summary leaflet?

Parking Services consulted you between October and December 2016 on the Emirates Event Day controls and how they were working for local residents and businesses. This consultation was carried out as part of an ongoing programme of reviews of parking schemes in the borough.

We would like to thank all those people who returned their questionnaire and provided feedback during the consultation. Your views are important to us and have helped shape the future of parking in your area.

We are pleased to announce that the consultation feedback has been reviewed and the final report has been approved by the Council.

This booklet provides a summary of the consultation results and the report recommendations of the parking restrictions that will be implemented in your area.

To view the full consultation results please download a copy of the delegated report from our website: [www.hackney.gov.uk/parking-hys](http://www.hackney.gov.uk/parking-hys)

Alternatively you can email: [consultparking@hackney.gov.uk](mailto:consultparking@hackney.gov.uk) or call **020 8356 8877**.

## What is contained in this booklet?

- Your consultation feedback
- Final recommendations
- What happens next?

## Your consultation feedback and final decision

In order to make a decision on whether changes to the current event day scheme are required, we have analysed your feedback on a street-by-street or part street basis. The decision to make any changes to the current scheme is based on both the consultation feedback received as well as other factors such as road safety issues or comments from other interested groups such as the emergency services or other Council teams.

## Response Rate

Consultation packs were sent to 14,011 households and businesses in the Emirates event day area.

711 responses were received from the addresses in the area. This equates to a response rate of 6% which is below the average response rate for a typical review consultation..

The table below details the response rate by road.

## Consultation Feedback

Residents and businesses were consulted on two specific questions regarding possible changes to the event day scheme. The first was whether they wanted the hours of operation for the event day to be changed, and secondly whether the scheme should be extended to include events held in Finsbury Park.

### Preferred hours of operation for existing event day scheme

Residents and businesses were given two options on the hours of operation;

- **Option 1:** Extend the Event Day restrictions on Saturdays and Sundays to 6.00pm to cover late start matches.
- **Option 2:** Retain the existing Event Day restrictions on Saturdays (up to 4pm in sections of zone M) and Sundays (Midday to 4pm in zones G, G2 and M)

Overall, 98% of responses received responded to this question, of those 52% were in favour of option 2 and 48% were in favour of option 1.

Preferred Option Responses	
<b>Option 1:</b> Extend the Event Day restrictions on Saturdays and Sundays to 6.00pm to cover late start matches.	<b>Option 2:</b> Maintain the current restrictions (see consultation leaflet for more information).
48%	52%

### Finsbury Park events

Overall, 99% of responses received answered this question, of which 53% were in favour of extending the scheme to include Finsbury Park events.

## Final Recommendation

### Operational Hours for the Emirates event day scheme

Based on the consultation feedback, we are not proposing to make any changes to the current operational hours of the event day scheme.

### Finsbury Park events

Whilst there was majority support to extend the current scheme to include events held in Finsbury Park, there was also a majority support to retain the existing operational hours of the existing event day scheme. As large scale events in Finsbury Park only take place approximately three times a year and because the inclusion of these would require an extension to the operational hours of the existing event day scheme, it has been decided not to extend the current scheme to include Finsbury Park events.

However to ensure that the parking needs of both residents and businesses are catered for during events at Finsbury Park, the Council will be introducing a separate scheme whereby temporary parking controls will be put in place to cover these events as has been done for previous events such as the recent Wireless festival.

Residents and businesses will receive a letter at the time of the event to provide detailed information about the temporary controls. Yellow signs will also be erected on each road providing details of the controls.

## What happens next?

As the feedback received did not support any changes to the existing event day scheme, we will not be making any changes to the scheme as part of this consultation. The Council will of course continue to monitor the scheme to ensure that it continues to work well for both residents and businesses in the area

## More information
