

Review of Parking Zone Y

Stamford Hill East/Springfield

Consultation outcome

Why have I received this summary booklet?

Hackney Council's Parking Services consulted residents and businesses in the area between 11 November 2024 and 6 January 2025 to see whether the existing parking controls still suited local needs.

We would like to thank everyone who returned their questionnaire and provided feedback during the consultation. Your views are important to us and have helped shape the future of parking in your area.

To view the full consultation results you can:

- Download a copy of the report from our website: **hackney.gov.uk/parking-hys**
- Email **consultparking@hackney.gov.uk**
- Or call **020 8356 5250**.

During the public consultation we sought your views on:

- The operational hours of parking controls in your zone
- Sustainable transport initiatives

Response rate

A total of 2547 households and businesses were consulted in Zone Y (Stamford Hill East/ Springfield) and 413 completed responses were received, resulting in a 16 % response rate. This is higher than the typical 6–7 % response rate for stage 4 review consultations.

Consultation feedback

Operational hours

As part of the consultation, we asked for your views on the current operational hours for your zone to ensure that they still meet your needs. Residents and businesses were given eight options on the hours of operation which included:

- Option 1 Monday to Friday 10am to 12pm (current hours)
- Option 2 Monday to Friday 7am to 11am
- Option 3 Monday to Friday 8.30am to 6.30pm
- Option 4 Monday to Saturday 8.30am to 6.30pm
- Option 5 Monday to Friday 8.30am to 6.30pm and Saturday 8.30am to 1.30pm
- Option 6 Monday to Saturday 8.30am to 11pm
- Option 7 Monday to Saturday 8.30am to midnight
- Option 8 Monday to Sunday – 24-hour controls

In total, we received 413 responses to the consultation. Of those, 98 % (409) of respondents answered the question regarding their preferred hours of operation with 91 % (373) supporting the operational hours of Monday to Friday 10am to 12pm.

Table 1: Support for parking operational hours.

Operational Hours	Response	Percentage
Monday to Friday 10am to 12pm	373	91%
Monday to Friday 7am to 11am	7	2%
Monday to Friday 8.30am to 6.30pm	9	2%
Monday to Friday 8.30am to 6.30pm and Saturday 8.30am to 1.30pm	1	1%
Monday to Saturday 8.30am – midnight	3	1%
Monday to Saturday 8.30am to 6.30pm	7	2%
Monday to Sunday – 24 hours controls	9	2%
Grand Total	409	100%

The current operational hours of Monday to Friday, 10am to 12pm, will remain unchanged. This decision is based on strong support (91 %) for the existing hours from the consultation feedback, as well as an independent stress survey showing no significant parking stress (above 85 %) outside these hours, indicating no benefit in adjusting them for residents and businesses.

Parking stress within the zone

As per the requirements of the Parking Enforcement Plan (PEP) 2022–2027, Parking Services commissioned an independent parking stress survey in Zone Y to identify the level of parking stress at different times of the day on each street. This data alongside the feedback received from residents and businesses in the area was used to make a final decision on the hours of operation of the zone.

The parking stress survey was conducted between 10 December and 18 December 2024. The survey was carried out over six days and included two weekdays and one weekend day each week over two weeks. The results of the survey indicated that whilst the average parking stress across the whole zone is 44 %, parking stress on a street by street basis indicates that the stress is higher than 80 % in three of the roads, either on both weekdays and weekends or on one of the days the roads were surveyed on. However, the overall parking stress levels within the zone during the operational hours is relatively low with an average stress level of 67 % recorded for each day (see table 2 below).

Table 2: Average road stress (during controls).

Street	Tuesday	Friday	Monday	Wednesday
	10/12	13/12	16/12	18/12
Ashtead Road	25 %	24 %	37 %	33 %
Castlewood Road	56 %	55 %	54 %	57 %
Clapton Common	65 %	89 % *	93 % *	75 %
Craven Walk	49 %	47 %	61 %	53 %
Egerton Road	72 %	76 %	78 %	76 %
Fairweather Road	94 % *	100 % *	94 % *	88 % *
Leabourne Road	46 %	48 %	54 %	55 %
Leadale Road	43 %	45 %	41 %	43 %
Lingwood Road	56 %	60 %	42 %	39 %
Moundfield Road	53 %	57 %	62 %	67 %
Olinda Road	71 %	67 %	74 %	72 %
Overlea Road	51 %	44 %	43 %	49 %
Ravensdale Road	83 %	73 %	77 %	80 %
Rookwood Road	78 %	65 %	70 %	39 %
Spring Hill	46 %	38 %	34 %	41 %
Timberwharf Road	88 % *	79 %	88 % *	82 %

*This data is based on the average figure of the surveys completed during the week period. The figures highlighted in bold show those that have the highest level of parking stress.

Parking design

Since no changes were proposed for the parking design, residents and businesses were asked if they were happy with the current parking design for their area. In total, 231 respondents said they were happy with the current parking design.

Other comments

Residents and businesses had the opportunity to provide other comments within the consultation questionnaire. Parking Services have reviewed and taken into account all design related comments submitted by residents and businesses, however no changes are being proposed as part of this consultation.

Sustainable Transport Initiative

As part of the consultation, Parking Services requested feedback on support for the implementation of sustainable transport initiatives such as parklets, electric vehicle charging points, car club bays, micro mobility hubs (electric scooters, shared use bikes) and secure bicycle parking facilities.

Feedback received from 105 respondents indicated that 30 % were in favour of schemes being implemented such as EV charging points and secure bicycle facilities.

Please see attached links which will give more information on how residents can have their say:

Electric vehicles – hackney.gov.uk/electric-vehicles

Cycle hangars – hackney.gov.uk/cycle-hangar

Car clubs – hackney.gov.uk/carclub

See table below for a breakdown of responses received.

Option	Response	Percentage
Parklets (replace parking space with greenery, furniture or other feature)	13	12%
Electric vehicle charging points	32	30%
Car clubs	16	15%
Micro mobility hubs (electric scooters, shared use bikes)	12	11%
Secure bicycle parking facilities	32	30%

What happens next?

As there were no proposals made during this consultation to the design and the current hours of operation were supported, no further changes will be made to the zone.

We thank you for taking the time to complete your questionnaire and provide your feedback to this consultation.

Frequently Asked Questions

Where can I load and unload if I receive deliveries?

Active loading and unloading can take place on all single and double yellow lines where there are no loading restrictions as well as in parking bays. For any specific requests, such as removals, you can request a dispensation or a bay suspension.

Please visit our website for more information  hackney.gov.uk/parking

How can I apply for a disabled bay?

If you are a Blue Badge holder, and your mobility impairment makes it difficult for you to walk short distances and you don't have access to off-street parking, you may be eligible for a personalised permit bay installed outside your home.

If you have a valid Blue Badge and live at the address where it is registered, you can apply for a personalised permit bay via our website:  hackney.gov.uk/apply-for-personalised-permit-bay

There is a criteria you must meet in order to be eligible for a bay. To qualify, an assessment is carried out by an occupational therapist who will confirm whether a bay can be installed.

You are also required to apply for a free Companion badge or an estate parking permit if you live within an estate. This will be linked to the vehicle entitled to park in the personalised permit bay.

A personalised permit bay can only be used by the vehicle that has been registered to the bay. Only one vehicle can be registered to each bay. Other Blue Badge holders are not permitted to park within the bay.

No other vehicles displaying the Blue Badge belonging to the registered owner of the bay are permitted to park within the personalised permit bay as the bay is associated with a vehicle and not the Blue Badge.

For advice about disabled bays, please email disabledparking@hackney.gov.uk or call **020 8356 8328**.

What if I have a Blue Badge or a Companion Badge?

Blue Badge holders are eligible to park in all shared use bays (pay and display and permit) and pay and display only bays for an unlimited amount of time and for a maximum of three hours on single and double yellow lines, providing there are no loading restrictions in place and that the vehicle is not causing an obstruction. Blue Badge holders can also use non personalised disabled bays.

Companion badge holders have the advantage of being able to park in resident and permit parking bays within their home parking zone. For more information on Companion Badges please visit hackney.gov.uk/companion-badge

The table below indicates the different types of parking bays available within the borough and who is eligible to park within them.

Type of parking bay	Response
General Permit parking bay	Resident or business parking permit
	Resident or business visitor voucher
Shared Use parking bay	Resident or business parking permit
	Resident or business visitor voucher
	Pay & display ticket
Resident parking bay	Resident parking permit
Business parking bay	Business parking permit

What if I own a motorcycle?

Since **10 June 2024** motorcycles are no longer able to park for free in Hackney. All motorcycles are required to hold a valid permit, visitor voucher or have a valid paid for RingGo parking session. Please visit hackney.gov.uk/motorcycleparking for further information.

What if I live on a Car Free Property?

A Car Free Property will be designated under a car-free restriction in a legal planning agreement and should be included in your lease or deeds. If you live in a Car Free Property you can still have your say on the review of parking controls but you are not entitled to purchase a parking permit. You are, however, allowed to purchase visitor vouchers for your visitors.

If you are not sure if you live in a car-free property please call us on **020 8356 8877**.
