

What's there now:

- Green lawn, trees and planting
- A fenced play structure in the south
- Fenced play equipment for older children by Cordelia House
- 26 car parking spaces for residents
- A walking route between Hoxton Street and Kingsland Road

What we're proposing:

- Make the walking and cycling route clearer and easier to use by relocating the car parking spaces
- Keep all 26 parking spaces, but arrange them differently
- Add more green space
- Move the play structure and add new swings and a seesaw
- New: A tree and small lawn area outside Rosalind House entrance
