

# Ministry of Stories Forecourt

Hoxton Monster Supply store is the streetface of Ministry of Stories, a local charity which provides creative writing workshops for children and young people within a 500m radius of the shopfront and is a cherished piece of social infrastructure in the neighbourhood.

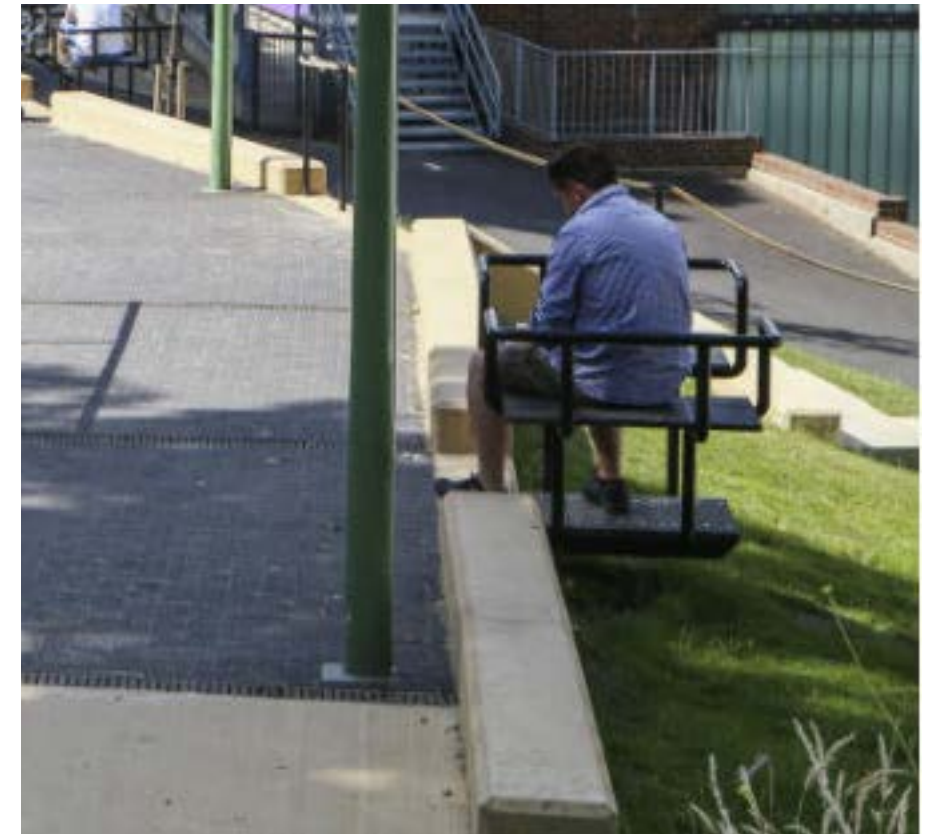

As their participants arrive and leave, their parents and carers have limited space to gather as they wait for sessions to finish or start. In order of priority the following interventions would significantly benefit Ministry of Stories operations and the streets condition.

## Design elements

1. Awning and fold-down benches to create a space for participants, parents, and carers to dwell. This would further activate the Hoxton Streets market environment
2. A parklet that provides a more generous out door space to dwell and provides green infrastructure (OPTIONAL DELIVER - SUBJECT TO BUDGET ALLOCATION)

Indicative design

Ministry of Stories - Hoxton Monster Supply Shopfront

Precedent - Fold down benches, Hackney

Precedent - Awning, Hackney
